To Whom It May Concern,

It is my pleasure to write a letter of reference on behalf of Alaina Baker. I served as Alaina's Wayne State University Faculty Advisor during her Bachelors of Social Work Field Placement at the Children's Trust Fund. I have had the opportunity to view Alaina's written work as well as evaluate her social work skills based on her impeccable evaluations from her Field Supervisor.

Alaina was always courteous and conducted herself in a professional manner and she was always looking for ways to enhance her abilities and hone her social work skills. Alaina shows promise at all levels of social work practice and thrived while facilitating evidence based, age appropriate group activities for the ICHANGE program. She served as a mentor while encouraging positive youth development with cognitive and behavioral skill building abilities and knowledge. Along with Alaina's interpersonal skills she also accurately and efficiently managed secondary prevention program data entry for Direct Services grantees quarterly reports that are used for federal reporting.

Alaina's pro-active attitude, passion and strong skill-set serve as a true asset to her clients as she would certainly be a great addition to any professional social work setting. Please feel free to contact me at (313) 216-4191 with any further questions.

Sincerely,

Galen Duncan
Sr. Director of Player Development/Faculty Advisor at Wayne State University
